

PesaBox User Level

Level	Role	Main Responsibilities / Access
1	Super Admin	Full system-wide access; create and manage PesaBox staff; create and manage partners/organizations; create clusters; assign staff to partners, clusters or groups; manage all groups and users; configure system settings; manage roles and permissions; view all reports and transactions; access audit logs; deactivate or reactivate accounts; perform all administrative tasks.
2	PesaBox Staff	Internal operational users with configurable permissions; manage assigned partners, clusters and groups; onboard and support VSLAs; manage group records where permitted; monitor activity; review transactions; assist users; generate reports; conduct operational follow-up; access only areas assigned to them unless granted wider authority.
3	Partner User	Manage or monitor groups assigned to their organisation; view assigned clusters and VSLAs; access dashboards and reports; monitor savings, loans, membership and group performance; track supported groups; review monitoring information; download reports; view program-level statistics. Normally restricted from editing day-to-day group financial transactions.
4	Cluster Manager	Manage VSLAs assigned to a specific cluster; view and support groups within the cluster; monitor group activity and performance; assist with onboarding; review meetings, members and financial records; conduct monitoring visits; identify inactive or struggling groups; prepare cluster reports; communicate with group leadership; escalate issues to PesaBox Staff.
5	Group Admin	Highest authority within a VSLA group, normally the Mwenyekiti ; manage group profile; configure group rules and constitution settings; add or remove Group Officers; approve important changes; manage member status; oversee meetings, savings, loans, repayments and reports; approve selected financial or administrative actions; access all records belonging to the group.

- | | | |
|---|----------------------|--|
| 6 | Group Officer | Other VSLA leaders such as Katibu, Mweka Hazina or committee members ; perform normal day-to-day group operations according to assigned permissions; register members; manage meetings and attendance; record savings, shares, contributions, repayments and fines; process loan-related activities; prepare records and reports. Cannot change core group settings, assign Group Admin authority or perform restricted Chairperson-only actions. |
| 7 | Group Member | End user with mainly self-service and view access; view own savings, shares, contributions, social fund, loans, repayments, fines, balances and transaction history; view meeting information and announcements; submit permitted requests such as loan applications; update limited personal profile information; cannot view or modify other members' private financial records. |
